Don't Stop Tobacco.
HOW TO CURE YOURSELF WHILE USING IT.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system; as tobacco on an intercessor never becomes a stimulant that his system continually craves. "Baco-Cure" is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure. It is purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want while taking "Baco-Cure". It will notify you when to stop. We give a written guarantee to cure permanently any case with three boxes, or refund the money with 10 per cent. interest. "Baco-Cure" is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from a coating as the day you took your first few or amoke. Cured By Baco-Cure and gained Thirty pounds.

From hundreds of testimonials, the originals of which are on file and open to inspection, the following is presented.

Clayton, Nevada Ca., Ark., Jan. 28, '95.

Eureka Chemical & Mfg. Co., La

Crosse, Wis.—Gentlemen: For forty years I used tobacco in all its forms. For twenty-five years at that time I was a great sufferer from general debility and heart disease. For fifteen years I tried to quit, but couldn't. I took various remedies, among others "No-Bac." "The Indian Tobacco Aspirate," "Double Chloride Gold," etc., etc., but none of them did me the least bit of good. Finally, however, I purchased a box of your "Baco-Cure" and it has entirely cured me of the habit in all its forms, and I have increased thirty pounds in weight and am relieved from all the numerous aches and pains of body and mind. I could write a quire of paper upon my changed feelings and conditions.

Yours respectfully, P. H. MURPHY,

Pastor O. P. Bhuray, Clayton, Ark.

CALL TO POPULISTS

Mr. Arnold Wants a Middle-of-the-Road Ticket.

Time is Short, and What is Done Must be Done Quickly.

Bardstown, Ky., Oct. 4.—To all Populists in Kentucky who are opposed to having their votes traded off to the Democrats by our Populist Committee, greeting:

Brothers, if we are Populists in earnest we can only support the principles of our party and candidates for office who honestly represent them. We can not afford to stultify ourselves by abandoning the principles we hold dear, whether we are hidden to do so by the dicker of a committee or any other authority.

Every Populist in the State of Kentucky who does not wish to see our party die, who does not wish to see the cause for which we have struggled so hard in the past perish and with it die all hopes of reform in the breasts of our people for years to come, is most earnestly urged to send me his name and address at once.

Every Populist who loves principles more than those scheming politicians—and that embraces nine-tenths of the rank and file—if he wants a straight-out middle-of-the-road electoral ticket to vote for, will please send me his name and address without losing a moment's time. If we put a straight electoral ticket in the field we must act quickly and decisively.

I appeal to every middle-of-the-road Populist in the State, who is resolved that no man or set of men can traffic with his vote, to assist me in this work. I hope the following brothers will go to work at once and help me in this work: John G. Blair, of Nicholas; W. B. Bridgford, of Franklin; Frank Rechtenwald, David O'Connell, Ben. J. Whibell, of Louisville; J. L. Green, Oscar Hughes and Charles Durbin, of Grayson; Ben South, of Hardin; Ben Curran, James O'Bryan and A. S. Johnson, of Mead, and every other true Populist whose eye shall see this call. I have already received a number of responses. If you are with me, answer quickly. I mean business. With me it's still "No Watson, no Bryan," and will be on November 3.

Friend paper please copy. And all persons in sympathy with this movement will please put this call in the hands of every Populist friend or neighbor as he can reach. If we act promptly, we can yet meet, name our electors and get them on the official ballot under the plow and hammer by petition. Fraternally yours,

JOSEPH H. ARNOLD.

E. R. RAY, Pres.

"For several months, I was troubled with a persistent humor on my head which gave me considerable annoyance, until it occurred to me to try Ayer's Dr. Dr. Vigor. Before using it, I had to pay a good sum for a bottle of gold. But that is not what is meant. How many units of labor does it require to earn a given quantity of gold? Statistics prove that in 1840 one dollar in gold purchased 15.1 hours of labor, but to 1891 one dollar of gold purchased 8.9 hours of labor. The value of gold expressed in terms of labor has fallen more than 50 per cent. in 50 years.

The only answer which populists have to make to this argument is to deny its validity. Nevertheless, it is evident to thoughtful men that to measure the value of silver in gold and then to turn around and measure the value of gold in commodities, is reasoning in a circle.

The value of commodities is measured in gold, and the value of gold can be measured in nothing else than in labor. The value of labor is the governing factor in the determination of prices of commodities, gold and silver included.

Mr. James Eudaly while working on a barn Friday fell and broke his leg, but is getting along very well at this writing.

Mr. Henry Tinsley has sold his house and lot to Mr. L. P. Faulkner and will make his future home with relatives in Muhlenberg and Henderson counties. Mr. Tinsley and his family have been residents of this place for over twenty years, and their absence will be noted very much.

Mr. Lazro Atherton and family, Buel, are visiting relatives near here.

Mrs. Jennie Allen, of Buxford neighborhood, visited her sister, Mrs. G. L. Evelyn last Sunday.

We had a good rain Monday, which was very much needed.

HON. Roswell G. Horr, financial editor of the New York Tribune, will speak at Leitchfield October 22.

In another column in this issue we publish a letter from Mr. Jas. H. Arnold, who was the Assistant Populist Elector of the 4th District. The letter is very bitter against the fusion of his party with the Popocrats.

Mr. BRYAN is the worst nominated man who ever ran for President. He has now accepted the Populist nomination and stands squarely on that platform. He is in favor of the Government owning the railroads, telegraph lines, &c., and in fact he would be willing now to accept anything in order to get his free silver ideas in working order.

WHEN the hard time began in 1893 we had more silver money than we ever had in the history of our country, and we have more now than we had then. It was not the lack of silver that caused hard times, but an overabundance, the threat of free trade. History tells us that every period of hard times wherewere ever had, has been broken up by restoration of a protective tariff.

The average weekly wages paid laborers in the United States is \$8.85. The average weekly wages paid for laborers in free silver countries: Mexico, \$2.50; Peru, \$3.55; Russia, \$2.88; Japan, \$1.14; China, \$1.00. Which do you want free silver or an honest currency? The American people will answer on the 3d of November. Give an honest money and pay our laboring men the best price of any country.

THE Bryan managers are giving up in despair, for they see that their man is defeated and with defeat constantly staring them in the face they feel crestfallen. Chairman Richardson of the Literary Bureau of the National Committee, has thrown up his job and gone home. Mr. Blackburn failed to fill several of his appointments last week and it seems that the Senator has gone off to some secluded spot. The American people are awake and thoroughly convinced that we want no Bryanism in this country.

In one year after wool was put on the free list we nearly doubled our importation of foreign wool and sent something near \$17,000,000 abroad to pay for same, when the money should have gone to our home wool rakers. The rakers of Ohio county, of whom none are better, feel this. It has only been a few years, under the McKinley bill when farmers could get 20 cents to 33 cents for their wool, and the merchants of Hartford, Beaver Dam and all the towns were anxious to get it at that price. How about it now under free trade? What do you get for your wool, Mr. Farmer? The same folks who were crying free trade four years ago are now crying free silver. Will the people believe them? We think not.

HORACE GREENE stumped the United States for President in 1872, and was defeated; Jas. G. Blaine stumped the United States in 1884 and was defeated, and Wm. J. Bryan is stumping the country now and will be defeated.

MR. FARMER, suppose the mints were to run day and night for years without cessation, this would not use up the surplus wheat and corn and beef and bacon of the American farmer. How would free silver benefit you? It is markets for products you want, not market for silver.

Mr. Bryan's friends, who several weeks ago were wildly enthusiastic over his prospects for election, are now by no means so certain. Those who felt that he was a man sent by Providence to save the country are now about to come to the conclusion that Providence didn't have anything to do with it after all. In his candidacy the nine owners are the moving power and not the deity....[Ben Ringer's paper].

And yet Mr. Riogo is going around in Ohio county making free silver speeches. He should harmonize himself. People don't like this kind of business.

THE Hartford Herald this week says "it is the duty of every Democrat to vote for Dave Smith for Congress. He is one of the best parliamentarians in the country." Now, we'll admit that he is a good parliamentarian and is a political trickster who cannot be excelled. He was trickster enough to beat Dave Murray out of the nomination for Congress. We'll admit that he is quick to take advantage of a point. He took advantage of the point when he got the nomination away from Mr. Murray after Mr. Murray was nominated.

OUR silver dollar is now worth about 53 cents when melted into bullion. The balance of 47 cents is the governments pledge that that piece of money will be held on a parity with gold at 100 cents. Under the free and unlimited coinage of silver the mint stamp would be simply the governments guarantee that the coin contained a certain weight and fineness, and the coin would only circulate at its bullion value of 53 cents, and the government's power to maintain a parity between two metals which are so widely different in value that it would be completely exhausted by reason of the enormous increase in silver coins and the disappearance of gold.

HON. C. L. JEWETT, ex-Chairman of the Indiana Democratic Committee, has repudiated Bryan and in a speech at Columbus, Ind., he poured "hot shots" into the Bryan camp. Among other things he said:

Laying aside old quarrels, forgetting old differences and coming with unbiased minds to a consideration of present emergencies, it must be admitted by candid men that, either from choice or through force of circumstances, the Republican party to-day believe to be glorious and sacred. In her principles lay, as we firmly believed, the only solution of our industrial chaos and economic anarchy. Shall we ratify the fusion agreed upon by our committee; give up our cause, and furnish the votes necessary to carry the State for Sewall, the millionaire monopolist—shall we do all this for the poor privilege of getting to vote for one Populist elector, who will also vote for Sewall if he is elected?

SHALL we who love the principles of the People's party sit idle by and permit our votes to be traded off to such a man as Sewall, and never enter a protest against the deal?

We believe the principles of the People's party represent the best interests of our country, and the uplift of mankind.

SHALL we who believe in the principles of our party stand by while it is being immolated on the altar of "Democratic perfidy and dishonesty," and never lift a finger to save it? Was the mission of the People's party to end in the election of a national banker, a monopolist of the most cold-blooded nature and the hardest heart, a crusher of labor and a sender of misery and despair into the houses of workingmen, a man who where he's known is most thoroughly despised?

POPULIST of Kentucky, that is the kind of man our committee has bargained to deliver our 20,000 votes to. My friends, they can not deliver my vote to such a man. Can they yours?

Last week I met the Hon. A. M. Hickle, who make the race in this county last year on the Populist ticket for Representative, and he authorized me to say he would not support such a deal and did not have a Populist neighbor who would. He will not vote for any Sewall elector. Mr. Louis Kirsch, former lecturer for the Alliance, will not support Sewall elector. The Hon. Ed. Stearn is another; and the truth is I have not met a single Populist who will vote for any elector who will vote for Sewall.

There will be a meeting of the resident Baptist ministers of Ohio county, and also of such Baptist ministers as are pastors of churches located in Ohio county at Beaver Dam on Friday before the fifth Sunday in November next, for the purpose of reorganizing the Ohio County Baptist Minister's Institute. Let all such preachers take notice and not make any conflicting arrangements, as important interests will demand their attendance on the said occasion. A full program will be announced in due time and all assigned duties will be expected to respond promptly. It is more than probable that prominent preachers will be present from abroad. Let us cooperate with each other to make this a proud and profitable occasion. J. S. COLEMAN Oct. 6, 1896.

A PROTEST

Against the Proposed Fusion With the Silver Democrats.

Jas. H. Arnold Calls a Halt on the Scheme to Sell His Party to the Enemy.

Democrats More Novices in Finance; Cannot be Trusted to Establish a Just Monetary System.

WILL ORGANIZE FOR RESISTANCE.

The following address to the Populists of Kentucky has been issued by Jas. H. Arnold, of Bardstown, one of the delegates to the International Populist convention.

We now begin to see the evil and demoralizing effects of fusion. We see our party distracted and torn with dissensions. Some of our party lead favored fusion with the Democrats on the best terms that could be obtained; others opposed compromise with our old opponents on any terms, believing such a course could only result in disaster and defeat.

But the fusion element triumphed; and the People's party of Kentucky is without a ticket in the field today. The terms of fusion were that the Populists of the State were to get two electors who would vote for Bryan and Wilson, and the Populists were to support the eleven Democratic Sewall electors.

But not even these terms have been secured. In the Third district the Populists and Democrats made their own trade. The Populists were to support John S. Rhea for Congress in that district and the Democrats gave the Populists the district elector.

It is said in the news dispatches that the Populist elector down there is for Sewall, and I have not seen the charge denied. But what advantage is it to vote for a Populist who will be elected, vote for Arthur Sewall for Vice President?

If the purpose of fusion was not to elect our candidate, Tom Watson, we have been deceived.

IN THE First district the Democratic elector has withdrawn his resignation as elector, leaving us as the price of 20,000 votes one Populistic elector, who is said, has promised to vote for Sewall.

Has not this whole fusion business ended in a complete defeat and disaster so far as our party is concerned?

THE mission of the People's party we believe to be glorious and sacred.

They are men whose patriotism and honesty of purpose has never been doubted, men whose opinion demanded the respect of all hearers. They went out after what they thought was to the best interest of thousands and their country, only to find themselves completely bargained and sold both nationally and locally now.

The men who will not be driven are going to be quiet during the campaign, but they are not going to forget to knock out Bryan at the polls.

One of the leading Populists is Capt. Sam James, and he is leading right out in meetin' against the leadership of Gorman, Jones, Blackburn and Rhea.

SPECIFIC FOR SCROFULA.

"Since childhood, I have been afflicted with scrofulous boils and sores, which caused me terrible suffering. Physicians were unable to help me, and I only grew worse under their care. At length, I began to take

AYER'S

Sarsaparilla, and very soon grew better. After using half a dozen bottles I was completely cured, so that I have not had a boil or pimple on any part of my body for the last twelve years. I can cordially recommend Ayer's Sarsaparilla as the very best blood-purifier in existence." — G. T. REINHART, Myersville, Texas.

HOCKER & CO.

Lewis in Wende.

I accompanied Mr. John W. Lewis our Congressman in this district, to all of his appointments in this county last week. Meade county. When he spoke here last Thursday at the Courthouse it was the largest political gathering that I ever saw in this town in my life. The Courthouse was filled with people, and there were hundreds in the Court house yard and on the streets unable to get in the Courthouse. Mr. Lewis and the Hon. Charles Blanford spoke here on that day.

Mr. Lewis also spoke at Paynesville, Concordia and Grantham, in this county, and at all of these places large crowds of people turned out to hear him speak, and on every occasion his speeches were well received.

He made good impressions on the people wherever he spoke in this county. Never before in my life did I ever see the people of this county so anxious to hear any man speak as they were to hear Mr. Legis. I think that I can safely say Mr. Lewis will carry this county.

WOULD HURT INSTEAD OF HELP.

How Free Colgate Would Injure the Farmers.

The chief strength of the sixteen to one agitation lies in the belief that it would benefit the agricultural classes. This is a serious error. The facts of all human experience show conclusively that free silver would cause widespread and prolonged injury to the truth of his statement.

Gov. Bradley at Owensboro.

OWENSBOURG, Oct. 5.

Gov. Bradley spoke here this afternoon to a very large gathering of people, composed of ladies and gentlemen. It was said by several men that there were between 3,000 and 5,000 people present, all of whom gave the speaker the most respectful attention from the beginning to the end.

Gov. Bradley's speech was, perhaps, one of the greatest speeches he has ever delivered during any previous campaign and it had a telling effect upon the minds of the people.

The outlook here for Mr. McKinley's election grows stronger and stronger every day. An influential gentleman told me this evening that McKinley would carry this city over Bryan, and that he would carry Kentucky 15,000 votes.

It is wonderful how Mr. Bryan has weakened during the past two weeks, while Republicans are becoming more and more sanguine and buoyant every day.

H. C. T.

WILL TAYLOR DEAD.

Mr. Will D. Taylor, who had been suffering with typhoid fever for the past few weeks, died at the residence of his parents near town last Saturday morning, surrounded by kindred and loving friends. Mr. Taylor was a young gentleman respected by all who knew him. He was a brother of Mrs. W. M. Fair, of this place, and he was once a resident of Hartford for several years where he was engaged in business. Funeral services were held Sunday after which the remains were laid to rest in the Goshen Cemetery.

SUFFERED EIGHTEEN YEARS.

Pain Departed and Sleep Came.

Mrs. Julia A. Brown, of Covington, Tenn., whose husband has charge of the electric light plant at that place, has been a great sufferer. Her ailments and speedy cure are best described by herself, as follows:

"For 18 years I suffered from nervousness and insomnia, and my health was really poor. I could get no relief at all. Two years ago, I was introduced to Dr. Miles' Medical Practice, Drs. Barret, Maley and Sherod, they

figured out by each farmer for himself.

A second way in which free silver would hurt agriculture would be by the financial panic which would inevitably follow the overthrow of our present sound financial system and the adoption of the unstable cheap silver standard.

With the millions of bank depositors demanding their savings, the machinery of credit, by which so large a part of the country's business is done, would be suddenly stopped. Merchants would be unable to buy goods for lack of credit; manufacturing industries would be closed down, as in 1893, and millions of workers would be idle. Men out of employment do not buy as much farm produce as when they are at work, and the farmers who now complain of the lack of markets for their produce would find themselves with a large part of their crops unsold. Would not this be a serious injury to agriculture?

Another evil which free silver would bring about is the unsettlement of their trade relations with the gold standard commercial nations, which purchase each year \$600,000,000 worth of our surplus farm products. The adoption of the silver standard, with its constantly fluctuating scale of prices, would prove the same barrier to commerce between this country and other countries that it has to commerce between Europe and India, China and Japan. Do the farmers want to curtail and unsettle our foreign trade?

These are some of the ways in which

free silver at sixteen to one would hurt the farmers. No advocate of

silver can claim that it is

possible to get rid of the

gold standard.

The question is, can any remedy that gives any relief whatever, I am now well and strong.

My life for Dr. Miles' Nervine.

MRS. JULIA A. BROWN.

Informed that I had become hopeless and that there was little hope for me, I decided to try

Dr. Miles' Restorative Nervine,

I was then unable to get to sleep until

well on toward daylight, and during all this time I had a deep, heavy pain in my head, and a desire to vomit, but after taking one-half bottle of the Nervine I soon slept soundly.

This remedy has no equal.

The doctor who prescribed it

gave me no relief whatever. I am now well and strong.
